Reggae Man

John Miles

Floatin' on air, never a care cruisin' downtown
Knows where to go, keepin' it low down to the ground
A bottle of wine, doctor good-time
He's got it all right
Stops for a while, gives you that smile
You're flying tonight
Said it's nice to know you
Hey, wouldn't you like to get around?
So much I could show you
Wouldn't you like to slow down?
The reggae man good for you
You never can see till you make it with me
The reggae man good for you
You'll never know why I can take you so high
The reggae man good for you
You never can tell till I'm ringing your bell
The reggae man good for you
Say the reggae man good for you
Nothing to say gets through the day
Sleepin' till late
Roll on the night
Hides from the light that's makin' him wait
Takin' his speed home, growin' weed
Cortina E over the hill
Dressing to kill and easy to see
Said it's nice to know you
Hey, wouldn't you like to get around?
So much I could show you
Now wouldn't you like to slow down?
The reggae man good for you
You never can see till you make it with me
The reggae man good for you
You'll never know why I can take you so high
The reggae man good for you
You never can tell till I'm ringing your bell
The reggae man good for you
You know the reggae man good for you
Said it's nice to know you
Hey, wouldn't you like to get around?
So much I could show you
Now wouldn't you like to slow down?
The reggae man good for you
You never can see till you make it with me
The reggae man good for you
You'll never know why I can take you so high
The reggae man good for you
You never can tell till I'm ringing your bell
The reggae man good for you
Yeah, said the reggae man good for you
The reggae man good for you
The reggae man good for you
The reggae man good for you
The reggae man good for you
The reggae man good for you
The reggae man good for you
The reggae man good for you
