Now Clap It Up, Clap It Up Clap It Up Now
Now Clap It Up, Clap It Up Clap It Up Now
Now Clap It Up, Clap It Up Clap It Up Now
Now Clap It Up, Clap It Up Clap It Up Now

Breathe In

Take it in slow, let it work up in your soul

Take ya time and let it grow before you blow

Breathe Out

Let 'em know what you about from the words in your mouth

To the way you live it out no doubt

Don't rock don't pop don't drop don't move

Just listen real close to what I'm trying to tell you

Its probably something different than what your used to

So let me break it down so the truth don't miss you

I learned a little bible was ready to take off

Armed with the truth but dropped the grace off

When everybody see me they ready to break off

I said to myself "Oh well, just stay lost"

Breathe In

But wouldn't take the word in slow

Lost the context that I heard before

Wouldn't meditate on the word I just go

Forget a commentary I got to save souls

They say wisdom is better than silver and gold

But I skipped that verse and I hit the door

Man they couldn't tell me nothing

Thought that I was on to something

And I was running all directions

Just a brother trying to gun it

I was telling folks I know the spirit got my back

But I never picked the word up and read the facts

It was on now, I was in the zone now

Jesus had twelve well I was on my own now

People leave me alone now

Bout to get it gone now

But I fell flat upon my face I'm all alone now

Didn't have the truth in my sling

I was just trying to wing it

If it sound good I'm gonna say I'm gonna mean it

If its in the bible thats cool, I believe it

But I ain't really study so I couldn't really see it

See man you got to believe man

Now I breathe in, breathing out is so easy

Last verse but I got a lot more to say

Got a partner named Jay from around the way

Breathe out all day but he wouldn't breathe in

He give the seed out but he wouldn't read man

And he told me theology was for them birds

And he really didn't need it when he read the word

Look left, Look right for a sign from God

But he didn't know the word was inspired by God

Telling people bout a couple funny things he heard

But the things that he heard they ain't match the word

If they don't match the word well they ain't true
Cause the bible is the final say on the things we do
I said Jay now, I understand how you feel
Man I love your zeal but you probably want to chill
He said Crae now, you can read all day
But I'm just a little different man that ain't my way
So I told him, how the word of God was true
How Paul was a Jew who would use the truth
of the Old Testament to make things clear
Thank God that day Jay turned an ear
Now he reading, reading, and reading the word
And his life look like what he see in the word
Matter of fact he don't ever want to leave the word
I'm trying to tell y'all that boy breathe the word!

Now check this out y'all
I want y'all to keep it holy man
I know this beat sounds like one of them beats
That make you want to do something
You ain't got no business doing
You know what I'm saying, check it out
But lets try something a little different
Let me see

Do the once was blind but now I see
Do the once was blind but now I see
Do the once was blind but now I see
Do the once was blind but now I see

Do the hot, hot, hot, hot in the church
Do the hot, hot, hot, hot in the church
Do the hot, hot, hot, hot in the church
Do the hot, hot, hot, hot in the church

Now Clap it up, Clap it up, Clap it up now
Now Clap it up, Clap it up, Clap it up now
Now Clap it up, Clap it up, Clap it up now
Now Clap it up, Clap it up, Clap it up now
