Total Eclipse

Superchunk

Big shots
Argue about what they've got
Making the planet so hot
Hot as a holocaust

Blow up
Everything's going to go up
Even if you don't show up
In your Chemise Lacoste

Total eclipse
It's a total eclipse
It's a total eclipse of the sun
Can't come to grips
With the total eclipse
Just a slip of your lips and you're done

Fall out
Nobody left to crawl out
If someone calls we're all out
Turning into French fries

Last dance
Let the entire cast dance
Do the dismembered blast dance
As we get atomized

Total eclipse
It's a total eclipse
It's a total eclipse of the sun
Can't come to grips
With the total eclipse
Just a slip of your lips and you're done

Total eclipse
It's a total eclipse
It's a total eclipse of the sun
Can't come to grips
With the total eclipse
Just a slip of your lips and you're done
