

Don't Break My Heart

24-7 Spyz

There was you, there was me
Everything was cool far as I could see
Thought our love was strong
But something deep inside tells me that I was wrong
Could it be a memory from your past
Could it be these things weren't meant to last
If there's somewhere else you'd rather be
Why don't you cut these ties and set me free
Told you once - told you twice
You should never play with love and that's good advice
Wanna know how you feel
Getta tell me something baby - what's the deal

Oh no! Don't break my heart
Oh no! Finish what you start
Oh no! Don't break my heart
Oh no! Finish what you start

Left me once - took you back
Said I'd give you one more chance and that's a fact
Wanna know what to do
Really need to find out 'cause I'm feeling blue
Could it be the end of our romance
Could it be this love is left to chance
Maybe you don't feel the same inside
Go on walk out the door and leave my pride
Just can't stop thinking 'bout things I used to need that I can
do without
Feel confused - by myself
Is it really over is our love back on the shelf
