

## Back To Me

### 3 Doors Down

I have poured out my heart,  
And laid it right here for you,  
And I've tried so hard,  
That's the best that I can do,  
Please understand I am not who I was,

You used to be all that I had,  
Now you're just not what I need,  
I've got to get over you and I know,  
Then I can get back to me.

Tears forget, that's more than I can do,  
'Cause they don't wash away,  
All the things that we've been through,  
I've put behind me my share of the shame,  
We could call villains but it's all in vain.

You used to be all that I had,  
Now you're just not what I need,  
I've got to get over you and I know,  
Then I can get back to me.

All of my life I've waited hoping,  
Wanting you to see me the way that I am,  
But now I know, that I'm not alone  
Someone understands

You used to be all that I had,  
Now you're just not what I need,  
I've got to get over you and I know,  
Then I can get back to me.

You've got to know that

You used to be all that I had,  
Now you're just not what I need,  
I've got to get over you and I know,  
Then I can get back to me.

Then I can get back to me,  
(Then I can get back to me)  
Then I can get back to me
