

I Was In...

3 Feet Smaller

Time stands still now
Silence is quiet now
All pain's gone for good
Take a picture of this structure
Set this moment free
I won't set in
I won't pretend to know everything
When time stood still
I was in...
No more taking
No more giving
Nothing's understood
Let me sleep now
Wake me up now
Capture everything I do
I won't pretend
That I know ths this is the end
This ain't the end
This is just my moment
I kiss my momories good bye
I tell myselft that this is right
Hold me tight / Hold me close
And then push me away from here
