Fallen

Hayley Williams

love letters written in lipstick
the case is closed and i'm
covered in your fingerprints
lay right here with me tonight
the sun is coming up
i've got a perfect view
i've got the day planned out
even thought it through
oh baby teach my something i
never knew
like a diamond in the roof i'd
shine for you
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
ooohh, oooh, ooohh
let's hit the town parade every
avenue
let's burn it down, forget all we
ever knew
free from these city lights
undercover, out of sight and out
of mind
where i can give you all my time
oh baby teach me something in
ever knew
like a diamond in the roof i'd
shine for you
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
ooohh, oooh, ooohh
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
Stop. chase here into the dark.
With such grace, it's never been
this hard.
I've never fallen, I've never fallen
faster.
ooohh, oooh, ooohh
