# Chillin' on Glee

**Mark Salling**

I wake up in the morning jump in to my ride.
I turn on the lights because it's dark outside.
I'm gonna be at Paramount until the sun go down,
Dance rehearsal, everybody look at the clown.

I pee, poo, text and give Zach the chills,
Just another day under the Hollywood hills.
And then I stop for a minute and think of the beginning,
And remember how freakin' stoked I was to be part of the pilot.
And I'm still because...

There is nowhere I'd rather be than chillin' on Glee
And I want to thank you for makin' me part of this family.
It's a crazy world and we don't know where we will go
But I will be your friend when we get there.

Bein' on a show has really got its perks,
I sleep in a trailer then I go to the works.
On set, wave to the people I know.
Braddie and Mike, Dante Di Loreto.
Telly's talkin' fitness, the crew is great,
I've eaten only yams now for three days straight.
But then I stop for a second and count all of my blessings
'Cuz it's more than just a TV show.
And if you've worked on it then you already know that

There is nowhere I'd rather be than chillin' on Glee
And I want to thank you for makin' me part of this family.
It's a crazy world and we don't know where we will go
But I will be your friend when we get there.

Matt was well-cast, Lea blows me away,
I could read a scene with Dianna everyday.
oh, Jenna, Harry, Heather, Dijon, hey Cory,
Why won't you play ookie-cookie with me?
Kevin is hilarious, Amber's got soul,
Chris a great actor, Naya's beautiful.
And I know for sure when I look into the future
I will look back on these times and say,
Man those were the golden days, so

There is nowhere I'd rather be than chillin' on Glee
And I want to thank you for makin' me part of this family.
It's a crazy world and we don't know where we will go
But I will be your friend when we get there.

La-da-da-da, La-da-da-da...
