

I write your name on my arm in india ink
Baby I told you once before it's not what you think
I drink you in with a sip but I really want a chug
You know I take what I can get gimme a dub, now

So good, so good c'mon now I wish you would
Anytime we get together get the feeling like I could

I write your name on my arm in india ink
Baby I told you once before it's not what you think
I drink you in with a sip but I really want a chug
You know I take what I can get gimme a dub

So good, so good c'mon now I wish you would
Anytime we get together get the feeling like I could

Whoa, are you with me?
Whoa, are you with me?
Whoa, is that the best you can give me?
Whoa, are you with me?

I write your name on my arm in india ink
Baby I told you once before it's not what you think
I drink you in with a sip but I really want a chug
You know I take what I can get gimme a dub, now

You're even cuter when you get cross just
Stamping your foot and trying to be the boss

I write your name on my arm in india ink
I'm hanging on every word because the way that you think
Yes, every misstep, well it lead me to you
I'll do what I gotta do to see it through

If we see a shooting star celebrate with a kiss
Won't have to wait to far with that one we'll never miss

Whoa, are you with me?
Whoa, are you with me?
Whoa, is that the best you can give me?
Whoa, are you with me?

I'd carve your name on my arm but you'd be alarmed that I did it
I admit it
A big swing and a miss so I'll keep my distance back in it
In a minute

Whoa, are you with me?
Whoa, are you with me?
Whoa, is that the best you can give me?
Whoa, are you with me?
Whoa, are you with me?
(I write your name on my arm in india ink)
Whoa, are you with me?
(I told you once before it's not what you think)
Whoa, is that the best you can give me?
Whoa, are you with me?

(I write your name on my arm in india ink
Baby I told you once before it's)
