So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

No...

So let's just wake up right now
Let's just wake up right now
Let's just wake up right now

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

멈춰봐 wait a minute
답이 없는 미로 같아
거칠게 조각나버린
이 기억 속 끝없는 밤
또 다른 네 안에 널 깨워내 봐
이 기나긴 터널 끝 너를 찾아
네 무의식 속에 그 길을 따라 go on

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

Let's just wake up this world

스며든 너의 꿈
맥박 속 커지는 beat
널 뒤흔든 noise 이 모든 건 oh
눈 뜨면 사라지는 illusion

Oh 새로운 감각에 눈 뜬 순간
단 하나의 세계로 연결된 맘
더 깊은 음악 속에 널 느껴봐
(Come on, come on, let me show you)

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

No...

So let's just wake up right now
Let's just wake up right now
Let's just wake up right now

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

Stop, wait a minute
It's like a maze without an answer
In this roughly broken memory
The endless night
Wake up a different you inside
Find yourself at the end of this long tunnel
Follow the path in your subconscious, go on

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

Let's just wake up this world

Your spreading dream
The beat of your heart is getting louder
The noise that shakes you up, all of it
It's an illusion that'll go away when you open your eyes

Oh the moment you open your eyes to a new sense
Your heart will be connected to one world
Feel yourself in the deep music
(Come on, come on, let me show you)

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world

No...

So let's just wake up right now
Let's just wake up right now
Let's just wake up right now

So let's just wake up this world
Let's just wake up this world
Let's just wake up this world
