Coming straight from the underground

In the here and the now back to where it began
Never even a chance, it wouldn't happen again
Still we are and by far it's the best that it's been
For a long long time now
Many moons writing tunes, find a way to connect
Gotta give it a way to make it the best
Staying strong all along for whatever's next
For a long long time now

We're gonna ride it out to the end
It's a long road up to the top of the mountain
We'll ride it out to the end
It's a long way down so let's stay in the trade wind

On a roll here we go
All as one here we go
On a roll here we go
All as one here we go

What a trip this has been, what a change in my friend
Instead of just skipping time, we had a stop with no end
We're still here it's still clear written down on our skin
For a long long time now
Here's an ode to the road, we're together as one
Gonna keep it alive, we're always chasing the sun
Writing words to a book, another chapter's begun
For a long long time now

We're gonna ride it out to the end
It's a long road up to the top of the mountain
We'll ride it out to the end
It's a long way down so let's stay in the trade wind

On a roll here we go
All as one here we go
On a roll here we go
All as one here we go

Let's keep it all together
Here and now forever
Gonna keep it all together
It's only getting better
Let's keep it all together
Here and now forever
Gonna keep it all together
It's only getting better

On a roll here we go
All as one here we go
On a roll here we go
All as one here we go
On a roll here we go
All as one here we go
On a roll here we go

All as one here we go
