

Wrapped my head around something you said I didn't know  
Making my mind overflow  
Something I just can't let go of  
Keep thinking about to break through

Got in too deep fighting about what to do  
Needed a good talking to  
Something I just can't let go of  
I think it's about to break through

Do-do-do-do  
Do you still remember  
What you're trying to dismember  
A construct to destruct

But all I need  
Is a little space and time for my mind  
Yeah, all I need  
Is a little space and time  
To get right back to who I came to  
Be-e-e, be-e-e, be-e-e, be-e-e  
I'll be taking my time  
To get right back to who I came to  
Be-e-e, be-e-e, be-e-e, be-e-e  
I just need to get space  
So I'll be taking my time

We all need space n' time come on now  
You know what I'm talking about  
The less we stress in excess  
The best n' no need to  
Shout when we're fed up or see dead ends  
When there's really no reason or no problems

Come on, real talk n' when our eyes  
Lock it's called vibin'  
We got that space n' time baby  
You know what I'm describing  
There's a space I'm looking for  
I grind all the time 7/24

It's up to you, either you will or you won't  
I think you're more damned if you don't  
I figured that out long ago, truly  
But I'm on a one way highway out of town  
I got to get away or I might have a breakdown, so break it down  
So long to this kind of worry and the doubt  
I roll the window down and give myself a way out, way out

But all I need  
Is a little space and time for my mind  
Yeah, all I need  
Is a little space and time  
To get right back to who I came to  
Be-e-e, be-e-e, be-e-e, be-e-e  
I'll be taking my time  
To get right back to who I came to

Be-e-e, be-e-e, be-e-e, be-e-e  
I just need to get space  
So I'll be taking my time
