

Take a chance on something star
You've got, all the live-long day
If I had to name one thing you think
Would data be hard pressed to say
You can say that I'm gushy
At least you know what I think
I know that I'm lucky
I know you're on the brink
You've got it good good good
You've got it good so good

You make up ridiculous words
Which mean exactly nothing
I know just what you mean and that's a funny thing
It's understood it's understood

Buddy Buddy Buddy
I know why you wonder
The sweetness of the ground
The sweetness of the flowers
You make your way, on a cloudy day
Got to move the world we prove, is too sweet yeah

We've parted much too soon
I know but that's how it goes
There's someone better out there for you and me
Can't wait to get on the road, and feel the shows and be like
Phenomenon 1 and 2 and 3
I don't mean to brag and I don't mean to boast
But I am the guy could that give you the most
It's good good good it's understood

Buddy Buddy Buddy
I know why you wonder
The sweetness of the ground
The sweetness of the flowers
You make your way, on a cloudy day
Got to move the world we prove, is too sweet yeah
