

Journey in peace now  
You don't have to be afraid  
Though mistakes, they have been made  
Journey in peace now

Journey in peace now  
You don't have to be afraid  
Though mistakes, they will be made  
Journey in peace now my friend

No you can't walk around it  
You have to walk right through it  
My father told me that so long ago  
Every time that you ignore it  
It gets a little more you just have to walk toward  
The fear to go

Don't be afraid, it's all part of the plan for us  
Don't be afraid, it's all part of the plan for us  
All that you hold dear  
Is on the other side of that fear whoa oh
