

Its alright this time
Your mine, all mine
All mine, mine
This time your mine
don't fall away from all my hate
Just makes you so inviting
Don't complete the underneath
All of my gears uniting
Your so special, your so safe
You make me feel like flying
Your my pleasure
Your my pain, you make me feel like crying
I can't feel you in me, I can't
Take this I need you to pray, your so
Sacred without you, I'm played, I can't
I'm so in need for you
For you, for you
my hands are tied by all these rights
And you'd seduce the notion,
Its a delight how I exCite
And make you feel the motion
I'm so taken, I'm so touched
And now the though escaped my head
I'm not makin' you excite
Pushing that your my ?????
I can't feel you in me, I can't
Take this I need you to pray, your so
Sacred without you, I'm played, I can't
Take this I need you in me, I can't
Feel you in me, I can't
Feel you in me, I can't
Feel you in me, that I
Feel you in... me.....
don't dash the last of my dreams
Cause every time I look at you I break so easily
Open wide and you will see
So come and fly with me (4x)
come fly, come fly with me
Come fly, come fly with me
Come fly, come fly with me
Come fly
I can't feel you in me, I can't
Take this I need you to pray, your so
Sacred without you, I'm played, I can't
Take this I need you in me, I can't
Feel you in me, I can't
Feel you in me, I can't
Feel you in me, that I
Feel you in... feel you in... feel you in...
Me.....
