A Man You Would Write About

From the time time began You Always chose a man To lead the people safely by Your Way To be a voice and echo what You Say Like David or Abraham Your Word is full of such men And if the Bible had no closing Page And still was being written to This day

I want to be a man that you Would write about Oh a thousand years from now That they could read about Your servant of choice in whom You found favor A man who heard Your voice

Generations away it is my prayer That they will look back and say "Oh to have that kind of faith and love What a solid man of God he was" 4HIM
