

Livin' In the Lion's Mouth

4HIM

I want a chance to tame the lion
To be a brave smile in the face of danger
Heads will turn
I want to bear my soul to the stranger
Lay my head in the jaws of destruction
And never fear

Because I know
If they would see my faith in the Lord
They might see His amazing grace
Like the center ring
In the middle of a roaring crowd
Oh to be living, oh living Livin in the lions mouth
I want to crack the whip of courage
That they believe would be my challenge
At any risk I want to please the stands of heaven
In a silent way
I hear the applauding
So close the cage

To serve with the loyalty of Daniel
You can throw me to the lions in this world
I will lift my head in undenial and lay it on the line
