

# When It Comes To Livin'

4HIM

There's only one thing  
that matters in life  
In spite of the way  
it might seem  
It's not when you're born  
it's not when you die  
But what have you done  
in between  
So don't spend your days  
In a useless parade  
of momentary matters  
When we can change  
What forever remains

When it comes to livin'  
We've only got one life  
When it comes to dyin'  
It's just a matter of time  
But everybody's got  
a choice to make  
For we all can make  
a difference in life  
Are you gonna take a stand  
for what's right  
When it comes your time

Sometimes I feel like we're  
moving too fast  
In search  
of the meaning of truth  
With no place to turn  
and no one to ask  
I wonder  
just who's leading who  
But time after time  
There's a courage I find  
to stand up to temptation  
I'm building faith  
With each choice that I make

One thing's for certain  
This crazy world is searching  
for a guiding light  
We can't deny that humanity  
is crying out  
For Jesus Christ
