

# Empty Wallets

## 5 Seconds of Summer

Stop digging in your heart 'cause tonight is on me  
Tonight is on me  
Stop trying so hard is what you said to me  
What you said to me

Get too high when I'm high  
So we see eye-to-eye, woah-oh  
Take the high with the low  
And away and away we go

Living our lives  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you  
Until we die  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you

We got a whole night, won't you live it with me?  
Live it with me?  
We got our whole lives, but living ain't cheap  
Living ain't cheap

Get too high when I'm high  
So we see eye-to-eye, woah-oh  
Take the high with the low  
And away and away we go

Living our lives  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you  
Until we die  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you

Sugar caught a break  
The fluid ain't to blame  
For the sugar causing pain

Living our lives  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you

I always believed in second chances  
I always believed in you  
I always believed in second chances  
I always believed in you

Living our lives  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you  
Until we die

Dancing on empty wallets  
Spend it all on you  
Spend it all on you

Sugar caught a break  
The fluid ain't to blame  
For the sugar causing pain

Well living our lives  
Dancing on empty wallets  
Spend it all on you  
Spend it all on you
