

You say you wanna be the one,
But still you leave the job undone.
You're only call me when you're free,
But you know that it ain't good enough for me.
You're always dippin' with your friends,
As if you're out there making ends.
And now you're knockin' on my door,
Well I guess you were too busy before.

You better make time,
If you wanna be with me, can't you see,
Show me I've got everything you need, everything.
Don't think twice, if you wanna be with me,
Be next to me,
If you wanna take the ride,
You'd better make the time.

There's other places I can be,
If you're not careful you might see,
Me out there with somebody else,
If you do you can only blame it on yourself.
I'm feelin' you without a doubt,
But I know how to do without,
So don't you call me on the phone,
Late at night when you don't wanna be alone.

Don't wanna be your part time lover,
I gotta be more than just another,
You know you better make time.

You're gonna have to show me,
You wanna be my one and only,
You're gonna have to prove it to me.
Don't wanna be your part time lover,
I gotta be more than just another,
You know you better make time.
