

You don't know what we go through  
So I'm singin' this song for you

Ain't got no time to play around  
It ain't about just hangin' out  
I got so much more to do  
It ain't worth bein' with you

Some people think they wanna live this life  
They see the fame but they don't know the price  
It ain't that easy, I need you to feel me  
Reality's of a star

I'm staying focused on myself, hey  
Ain't gotta please nobody else, uh  
Got to do what's best for me  
That's the way it has to be, baby

Some people think they wanna live this life  
They see the fame but they don't know the price  
It ain't that easy, I need you to feel me  
Reality's of a star

You don't know what we go through  
So I'm singin' this song for you

Some people think they wanna live this life  
They see the fame but they don't know the price  
It ain't that easy, I need you to feel me  
Reality's of a star

More than west travellin'  
Go to school, I got my friends  
And family had a crave, it'll be okay  
Photo shoots, make up, video  
Is the truth, mostly missin' your men
