

Don't Take Away the Music

911

Don't take away the music
It's the only thing I've got
It's my piece of the rock

Ooh hoo, I knew you were always there
You were my song (you were my song)
How am I supposed to bear it
Now that you've gone
(Would you separate the words)
Ooh, from a sweet sweet melody
(Lady, would you take away)
The music from a symphony.

Don't take away the music
It's the only thing I've got
It's my piece of the rock
Don't take away the music
Everything else is gone
Don't strip my world of it's song

Everytime you whispered low
My heart would sing (my heart would sing)
Now it's silent like the phone
The phone that never rings, baby
(Memories of love's refrain)
Memories keep haunting me
(What are we doing to the song we sang)
What happened to our sweet harmony

Don't take away the music
It's the only thing I've got
It's my piece of the rock
Don't take away the music
Everything else is gone
Don't strip my world of it's song

Don't take away the music ooh ooh ooh
Don't take away the music ooh ooh ooh
Don't take away the music ooh ooh ooh
Don't take away

Since you're not here with me
My whole life seems out of key

Don't take away the music
It's the only thing I've got
It's my piece of the rock
Don't take away the music
Everything else is gone
Don't strip my world of it's song
