

Season of Love

98 Degrees

When the air turns cold and the fire place starts to glow
(It must be Christmas, it must be Christmas)
The twinkling lights on the trees and kissing under mistletoe
(The loving gives us, it must be Christmas)
I hear the carolers sing while we dance in the falling snow
(Falling snow)
And so much show in the air, it's impossible not to know

This is the season
The season of love love love
It's got me believing
This feeling is enough

Whoa ooh ooh
Don't let this go away
It can feel like Christmas everyday
Your body let me hear you say
Whoa ooh ooh
Oh don't let this feeling end
Christmas comes around again
Everyday will live again
This is the season of love...
This is the season of love...

On wrapping presents with we both build the snowman in the yard
(It must be Christmas, it must be Christmas)
I'm standing with you hand and hand in the sea of shining stars
(The loving gives us, it must be Christmas)
Kiss God turn me better as the reindeer start to fly
(Fly you across the sky)
So much joy in the air, it's impossible to deny

This is the season
The season of love love love
It's got me believing
This feeling is enough

Whoa ooh ooh
Don't let
This go away
It can feel like Christmas everyday
Your body let me hear you say
Whoa ooh ooh
Oh don't let this feeling end
Christmas comes around again
Everyday will live again
This is the season of love...
This is the season of love...

Don't let this go away
It can feel like Christmas everyday
To the every moment celebrate
It brings the love, forget the hate
...
