

# Beloved

A.R. Kane

Yes I want you  
and I need you  
the angel just passed me by, oh!  
I feel like I could change inside  
I feel like I can change inside  
breeze flicker through my mind  
feel your body close on mine  
inside you:  
looking down below  
see the love flow  
then the love go  
what is love's time  
can we ever know?

electricity blossoms  
sparks in my mind  
then I glow for a while  
and I'm gone!  
I feel like I could love tonite  
I feel like I can love tonite  
wings flutter moon bright  
close my eyes real tight  
and find you:

looking down below  
see the life grow  
then the life blow  
in a lifetime  
can we really know?

my head in the clouds an my  
feet on the ground  
spinning out of the dream  
and I'm gone!
