

Ease Off The Bit!

A Toys Orchestra

C'mon! Look around nobody knows you're still here
You could come out all at once and them scared
Or maybe you'd remain where you are and pick on them
Back home to watch tv and smoke hundreds of cigarettes
...today i'm gonna try to live just "a perfect day"
Unbutton my shirt and varnish my nails
Ease off the bit!
Hey you! I'm here!
Bent on my knees
Washed by my tears
Slack off to be
Always in the mid
...ease off the bit!!!
Somebody says it's all ok and everything is better
Somebody else counts his fingers after a handshake
Somebody preaches about the last mass extinction
And says it's all the fault of 1968
The way to find your smile again
Is to buy a new dentifrice and then... Even the tv and the president assures it's all ok
They say: it's all ok!yeah! It's all ok!
Believe in them! It's really easy talk from someone else's mouth
You need to trample on the shit to say it smells!
Ease off the bit!
Hey you! I'm here!
Bent on my knees
Washed by my tears
Slack off to be
Always in the mid
Ease off the bit...ease off the bit!!!
Bigotry? ...somebody needs
I'm wondering too easily
Slack off to be
Always in the mid
Ease off the biiiiiiiiit!
