A Vain Attempt

You know that I want you, I want you, every day.
You know that I miss you, I miss you, by my side.

She broked my heart and you broked my life too.
She is bad because she broked up with me too

So take my advice wherever you lies and made me alone
cuz' when you're dead, when you're dead, I'll write to
you.

She broked my heart and you broke my life too.
She is bad because she broked up with me too.

You know that I want you, I want you, every day.
You know that I miss you, I miss you, by my side.

She broked my heart and you broked my life too.
She is bad because she broked up with me too.

She broked when I tried to when I befallled.
Whenever time we touch I get this feeling, that's not

She broked my heart and you broked my life too.
She is bad because she broked up with me too.
