

# Love Me

Aaron Lewis

Well it seems that I've come  
To a fork in the road  
With a knife and a breeze at my back  
With no way to move forward  
And really no way to turn back

And my nights are too long and too lonely  
And my daytime still filled with this pain  
With me stuck in the middle  
Without the right words to explain

But we all fall down someday

But you try to love me  
You try so hard to save me  
You just wanna see me  
Get through my day  
So I try to love you  
The way I'm supposed to  
But all that I've been through  
Still gets in my way  
But you try to love me  
Oh, you try to love me

Well, it seems this life just keeps rolling along

Like a freight train that's jumped from the tracks  
With this weight I've been carrying a lifetime  
Still breaking my back

And my nights are so long and so empty  
And my days are still filled with this pain  
With me stuck in the middle  
Without the right words to explain

But we all fall down  
We all fall down someday

But you try to love me  
You try so hard to save me  
You just wanna see me  
Get through my day  
So I try to love you  
The way I'm supposed to  
But all that I've been through  
Just gets in my way  
But you try to love me  
Oh, you try to love me

You try to love me  
Oh, you try to love me
