

# The Kindest Days

Aaron Sprinkle

You right in front of me  
Now I can clearly see  
All Your greatness  
But it separates this  
From what I ever heard  
You've been holding me like a bird  
In Your heart and  
You've kept it guarded  
Now that i clearly see  
You standing next to me  
My loneliness has finally found an ending

(chorus)

I can't believe  
That You're such a part of me  
And after all this time You got through  
With Your loving ways  
And these have been the kindest days  
That I've known since I met You

So I will say again  
All I have ever been  
Is walking backwards  
Chasing after  
Things that will never be  
Able to carry me  
Anywhere but to the ground below me

(chorus)

Oh a love that gets underneath my skin  
It goes in and shows me the things I've been missing  
All I know is I want it now  
I think about the days when I won't feel pain

(chorus)
