

The Saw and the Carnage Done

Aborted

Emulous life form emerges, and slashed continuously
A man made predator slides back moral, self censored reality

Thrusting through my veins
Coagulating awareness
Chromosomes regressed
With the saw, I shall purge
Taking the next step
The robbing of life
Anticipating blood flow
Feelings of contempt arise

No longer to control, I crave the dead
One with the dead, I am

A prophesized death machine, unleashed
Bones are splintered as I saw, Decadence to feed
Murder is mankind's only saviour, goremageddon

Sawing up stiffes to my every need
Decadence to feed
Feeding, an preying on man
I cleanse this world, decadence exceeds

Emulous life form emerges
And slashes repeatedly
A manmade predator feeding
On it's own creator, your society

Feeding, and preying on man, to cleanse the world
Decadence exceeds
Sawing up stiffes to my every need
Decadence to feed
