

# I Don't Know

Aborym

I don't know exactly what a prayer is  
inner turbulence: the only thing I feel  
No birth, no death, no time nor sun, a virtual life  
zombies are coming, I don't know where to hide

There is no more room in hell  
that's why they threw me here  
in the city of fear

masturbated by electric ghosts  
with your pictures in my head  
bloody skyline, first sign of an apocalyptic age to come  
Please stop saying everything's ok  
the radioactive fear is slowly killing me

I don't know what I've become  
And I don't know what the hell I'm hoping for  
I don't even know why it matters anymore  
I don't know if to sleep or wake up  
and I don't know how to clear my head  
I'm getting worse, I'm buried in my bed

Thousands of blackbirds fall to their death  
an epidemic, the rape of planet Earth  
Even all the strongest rain can't take my pain away  
I don't know anything, the sun can only decay

Everyone's sleeping with sorrow  
don't you fight, we lost the way  
still we believe there is a tomorrow  
but I would climb my way...  
I don't know...  
I don't know...
