

Smoke Gets In Your Eyes

Absynthe Minded

It's funny, this is understanding
What is left is worth
Much more than that what you expected
Of dust and bones, the core
If you're searching and somebody finds you
What you're gonna get?
Take it in and breathe it out
No one's better off without

Aaah, that's how it is
Oooh, now give me a kiss
Aaah, that's how it is
Oooh, now give me a kiss

It took a while before I got it
There is a gap to fill
This can make us stronger,
Be this as it may, it will
If you want a different answer
Don't ignore that vibe
I can't tell you that I miss you,
No that river I won't dive in

Aaah, that's how it is
Oooh, now give me a kiss
Aaah, that's how it is
Oooh, now give me a kiss
Aaah, that's how it is
Oooh, now give me a kiss
Aaah, that's how it is
Oooh, now give me a kiss
