

To The Boredom Dying Slowly

Absynthe Minded

I wanna talk about evolution
I wanna talk about the self controlling things
We gotta make a contribution
To the boredom dying slowly
Give me everything you got
What goes on up there
Give me everything you got
What goes on down here

Honey I ain't got no obsession
But I'm obsessed with life before death
Ain't gonna slow down 'cause I'll regret it
I gotta give this one more shot
Give me everything you got
What goes on up there
Give me everything you got
What goes on down here

Some time hit some time miss
Ain't nothing wrong with it
Some time hit some time miss
Ain't nothing wrong with it

Some time hit some time miss
Ain't nothing wrong with it
Some time hit some time miss
Ain't nothing wrong with it
