Out I started, late tonight
Blinded by the light
Strangest feelin' I have known
Don't know what's wrong or right

See the people, clubs and bars Streetlife passin' by, yeah Screamin' engine, burnin' gas I'm on overdrive

Danger, danger, save your soul The finger's writin' on the wall Where you are the angels are blind

Midnight and I cruise along the highway Midnight and I'm all right on the highway

Midnight sky is bright and clear New moon on the right All at once, risin' haze The freeway is my life

I'm on a high, spacin' out
Where I'm goin' I don't care
Can't you see, this is me
I'm an indestructible boy

Danger, danger, save your soul The finger's writin' on the wall Where you are the angels are blind

Midnight and I cruise along the highway Midnight and I'm all right on the highway I'm all right

Midnight and I cruise along the highway Midnight and I'm all right on the highway Midnight and I cruise along the highway Midnight, on a never ending highway
