

# My Déjà Vu

Ace Of Base

My deja vu...you're my obsession

My deja vu everything is up to you  
If you do want me you know where to search  
We'll get the magic back again  
My deja vu everything is up to you  
If you do want me you know where to search

I wanna see you dancing naked  
I wanna see you touch the moon  
But when I try to reach your fingers  
You just vanish into air  
I wanna feel you with my senses  
'Cause I'm almost sure the texture of your skin  
Is gonna tell me who you are

My deja vu you're my obsession  
My deja vu it's always you

My Deja Vu...

I wanna hold you like I used to  
I wanna feel you in my blood  
I wonder why I do confess this  
To myself all the time  
I know the time is working against us  
But I'll long for you the rest of my whole life  
Like a prisoner of hope

My deja vu you're my obsession  
My deja vu it's always you

I have tried to get to know you  
To get you off my mind  
It feels like going back in time  
And snap, I see your finger once again  
My deja vu everything is up to you  
If you do want me you know where to search

My deja vu you're my obsession  
My deja vu it's always you  
My deja vu you're my obsession
