

Wake Me When It's Over

Active Child

Wake me when it's over
Is it true, is it true
And I watch it fall away
Wake me when it's over
Is it true, is it true, is it true

And I watch it fall away
And I watch it fall away
Wake me when it's over
And I watch it fall away
Fall into my heart
Pain is spilling over
And I watch it fall away

How can we see this through
I would never fade away
I put my trust in the truth
Wake me when it's over

That will never fade away
Just like I needed you
Let me spirit wash away
How I needed you
I would never fade away
It's been haunting me
I could never fade away
Away, away, away
