

Amoeba

Adolescents

Ameoba Ameoba Ameoba Ameoba
Ameoba Ameoba Ameoba Ameoba

We are the scientists our the lab
Looking through a microscope
Those little glass slides they never lie
How can this small mind cope?

I've never seen anything like it before
This amoeba's got a mind of it's own
But don't turn your back you stupid science world
This is reaching for the telephone

Ameoba Ameoba Ameoba Ameoba
Ameoba Ameoba Ameoba Ameoba

A one celled creature a one celled thing
It hardly knows it's alive
You're better off dead if you only knew
Your growing life is taking a dive

I've never seen anything like it before
This amoeba's got a mind of it's own
But don't turn your back you stupid science world
This is reaching for the telephone

Ameoba Ameoba Ameoba Ameoba
Ameoba Ameoba Ameoba Ameoba

Ameoba Ameoba Ameoba Ameoba
Ameoba Ameoba Ameoba Ameoba

Ameobaaaaaaaaaaaaaaaaaaaaa!
