Democracy

Adolescents

Is this what you call democracy? They're killing us, and you're killing me Now I know better, now I can see That I don't want to be in democracy

Now is the time for us to strike Do we know what we're doing? Have we set things right?

They're leading us into World War Three And this what you call democracy It's a cry for no government, a cry to be free And I don't see freedom in democracy

Democrat, Republican, or Libertarian Do you really care what party you're in?

Did you really think you could make it big Living among these nuclear pigs If you didn't know you'll never see We're too far gone for democracy

Look what's it's done to you and me Democracy is not for me
