

I grew up in Orange County
In the shadow of a mouse
Watched the sky light up
From the rooftop of my house

Things seemed so subtle
Off Katella Avenue
Living in a city
With so many things to do

This is a town where nothing goes
This is a town where a mind can't grow
This kind of town gets in your face
This is a town like any other place

Again, I'm losing again

I went to a shrink, I was so messed up
10 hours of therapy, 1500 bucks
I asked him, doctor what's the matter with me?
He said, you're an addict, it's so plain to see

This is a town where they kiss and tell
This is a town that I know too well
This kind of town gets in your face
This is a town like any other place

Again, I'm losing again

This is a town where they kiss and tell
This is a town that I know too well
This kind of town gets in your face
This is a town like any other place
This is a town where nothing goes
This is a town where a mind can't grow
This kind of town gets in your face
This is a town like any other place
