

Another Time

Adrian Belew

I remember everything you said to me
Your moody stance, my nervousness
Your confidence
I remember magnetism in your eyes
You told me then without a sound
You wanted me
It makes me shake to feel this way
No, this can't happen to me
I remember thinking possibilities
Of rendezvous and chemistry
I wanted you
I remember we exchanged no promises
Except to say
Another time another place
It makes me shake to feel this way
No, this can't happen to me
