

# Only You

Adrienne Bailon

Ooooh...

Only you  
Know I'm with cause I'm buggin said I do  
You was there whenever I needed only you  
Now I'm addicted keep it thuggin' baby boo

Our love, our love's so crazy  
But always so real, that's no lie(lie)I ain't playing. My trust in you could  
break me but I know that there could never be another!

Only you  
Know I'm with cause I'm buggin said I do  
You was there whenever I needed only you  
Now I'm addicted keep it thuggin' baby boo

I feel, I feel complete when,  
When I'm with you and I'll never hide(hide) what I'm feeling. Sometimes, sometimes we fight BUT next day we cool that's why there'll never be another...

I hope that you understand, what I feel about you, well I think you do, I know you do  
Wait a minute now!  
I could just leave it to chance  
But baby I love you  
I don't need another! (oooh)

Only you  
Know I'm with cause I'm buggin said I do (said I do)  
You was there whenever I needed only you  
Now I'm addicted keep it thuggin' baby boo (baby boo)  
Do I really love him?  
Yes I do!

[Jay- Z:]  
Blowing jets, Global Express  
Out the country but the blueberry still connect  
On the low but the yacht got a triple deck  
But when you young, what the fuck you expect? Yep, yep  
Grand openin, grand closin  
God damn your man Hov' cracked the can open again  
Who you gon' find doper than him with no pen  
Just draw off inspiration

Only you...  
Only you...

Baby only you!

Only you  
Know I'm with cause I'm buggin said I do (said I do, said I do)  
You was there whenever I needed only you (only you)  
Now I'm addicted keep it thuggin' baby boo

Ooooh, ooooh, ooooh oooo
