Sell Your Dope

A few words of inspiration This song is dedicated to hustlers standing on the curb Smokin' herb, movin' weight from the inner city to the suburbs Paranoid of jail, pocket full of ya'll, just waitin' on another sale Sip your beer, wipe your tears Encourage your peers, it's gonna be alright

Everything is gonna be alright, sell your dope Make your money every night Them brothers around the corner, they wanna start a fight Sell your dope, keep on hustlin' till your money's right

You and your girl argue every night Sell your dope especially when your pocket's tight You can't find a job 'cuz your skin ain't white Sell your dope brother, you know this world ain't right

Hey, whattup lil' inchworm I hope this letter make you feel just a lil' bit better Got your T-shirt picked your khakis creased So you can be G'd up when you get released

Me and my homeboys put together some Jimmys To buy some beer and a couple of strippers You can use my car till you find another Can't wait till you get home

But later on, that money you get from your GR check Should be enough to put you back on deck Now I know, you on parole but don't be scared This time, we be prepared

Fuck the feds, don't say shit to your broad Keep your dope stashed in your neighbors yard When they kick in the door with they steel toed boot Won't find nothin' but a lawsuit, baby, baby

Everything is gonna be alright, sell your dope Make your money every night Them brothers around the corner, they wanna start a fight Sell your dope, keep on hustlin' till your money's right

You and your girl argue every night Sell your dope especially when your pocket's tight You can't find a job 'cuz your skin ain't white Sell your dope brother, you know this world ain't right

Your baby momma, she might trip 'Cuz you hangin' with a Crip tryin' to clock your grip She can't help a black man out But when bills come around, she's got her hand out

The baby needs Pampers and Similac Plus you need rims for your Cadillac Ignore your girl when she starts trippin' Keep them kilos flippin' Dayton's dipin'
