

The Bomb

Afromental

United soldiers!
I think I just hear the...

Bomb! Comin' from the sky
Way up high
Bringin' Afromental sound
Bomb! Comin' from the sky
So you better watch out
It's gonna blow your mind

Sickness, that's what I feel
I feel sick of music that gives a mind-drill
Who did that? Who's making that deal
Who's fault's a radio full of bullshit
We won't step back
We'll fight with that pigs
We'll crash that unit, join us you'll fit
Open your mind, look to the sky
Listen now, 'cause I think I just heard the bomb!

Bomb! Comin' from the sky
Way up high
Bringin' Afromental sound
Bomb! Comin' from the sky
So you better watch out
It's gonna blow your mind

They don't give a god damn thing what you wanna hear
Treating you like their whores with no ears
They don't even give a shit about their responsibility
To the people and the way they feel
They think we're only listeners blinded by their garbage
Loud and colourful but not real
They almost forgot we are here with the massive gear
Hold on!
'Cause I think I just heard the bomb!

Bomb! Comin' from the sky
Way up high
Bringin' Afromental sound
Bomb! Comin' from the sky
So you better watch out
It's gonna blow your mind
