## I Was a Teenage Anarchist

**Against Me!** 

I was a teenage anarchist, looking for a revolution. I had the style, I had the ambition. I read all the authors, I knew the right slogans. There was no war but the class war. I was ready to set the world on fire. I was a teenage anarchist, looking for a revolution. Do you remember when you were young and you wanted to set the w orld on fire? I was a teenage anarchist, but the politics were too convenient In the depths of their humanity all I saw was bloodless ideolog у. And with freedom as the doctrine, guess who was the new authori ty? I was a teenage anarchist, but the politics were too convenient Do you remember when you were young and you wanted to set the w orld on fire? I was a teenage anarchist, but then the scene got too rigid. It was a mob mentality, they set their rifle sights on me. Narrow visions of autonomy, you want me to surrender my identit у.

I was a teenage anarchist, the revolution was a lie.

Do you remember when you were young and you wanted to set the w orld on fire?
