

Tempting The Fires Of Gehenna

Agoraphobic Nosebleed

Religious belief as originally allowed as a convenient method of control.

Since it has been mislead in an unexpected direction.

I have sent those with the role to destroy it.

Holy roman sodomites, fondlers of the cloth.

If men don't realize the true evil which has always been to mislead, tax, and molest;

I cannot but promote the preparation for the fire of gehenna here on earth.
