

Tired

Aidan Hawken

Just the way i saw you reach out, touch his hand, it was born
something in us you can't understand and if i ever get to know
you, it might kill us both
but i'll be free to tell you you're reflected in the corner of
my eye
while i stood there watching all the busy people passing throug
h it occured
cars and trucks that had a million things to do, i thought, i s
hould slow down for a while
i get so tired after all
i get so tired after all
(fade)
