

Free at Last

Air Raid

In a world full of darkness
I saw a shimmering light
to oppose this dominion
we must stand up and fight

Fight

Soldiers gathered around me
victory was at hand
they were eager to follow
obey my command

Now we take a stand
fight till the end

Fight

So we rise victorious
in a field filled with blood
death has passed and has spared us
we are free at last

Now we take a stand
fight till the end

and rise again
victorious, and free at last

Darkness fading away
light prevailing this day

Free at last
