

Backseat Boogie

Airbourne

Find a sweet spot, put it in park
It don't even matter if it's light or dark
Follow my lead, give you what you need
Fogging up the windows, have you beggin' me, please
Get the horn honking, get your boots knocking
Top of the mountain above the city lights
Rolling up a smoke, cheap bottle of wine

Backseat boogie
Hot on the beat
Backseat boogie
Turn up the heat
Hoochie coochie
Know what I mean
Backseat boogie
Do it with me

We could go to the show or just ride around
Stay up all night and never get found
From the north to south, the west to the east
Bouncing to the rhythm of the bumble bees
Roll the windows up, get the rock rockin'
On top of the mountain above the city lights
Rolling up a smoke, cheap bottle of wine

Backseat boogie
Hot on the beat
Backseat boogie
Turn up the heat
Hoochie coochie
Know what I mean
Backseat boogie
C'mon, do it with me...

B-b-b-back...
B-b-b-backseat...

Backseat boogie
Hot on the beat
Backseat boogie
Turn up the heat
Hoochie coochie
Know what I mean
Do the backseat boogie
C'mon, do it with me

B-b-b-backseat boogie
B-b-b-backseat boogie
Hoochie coochie
B-b-b-backseat boogie
Backseat boogie
In the backseat
In the backseat do it with me

Do the backseat, the backseat boogie
