Airbourne

Don't know her name, Or where she comes from
Animal untamed, Beating on her tom-tom
Whoa she got rhythm, Baby got style
A body to die for, With a dangerous smile
You want Krakatoa, You want it done right
Set the bed on fire all night? You need...

I wanna rock her, Rock her all night
Take her to the moon, And blow her out of site
Whoa she got rhythm, Baby got style
A body to die for, With a dangerous smile
You want Krakatoa, You want it done right
Set the bed on fire all night? You need...
