

Was it all in my head?  
In an empty bed  
And I told you that I need you baby  
Can't you see I'm alone oh oh?  
I was lost in my feet  
On an empty street  
So I said you seemed infinity  
You forever figures 5 and 3  
You know oh oh

Cross my heart and hope to die  
Stick a needle in my eye  
My momma says to pick the best  
And you are it

Hey  
All our trouble's gone  
Like when we were young  
Take me back to where we all began  
Here we are again like we should've been  
Oh my lady can I have this dance?  
My lady  
Hey  
All our troubles gone  
Like when we were young  
Take me back to where we all began

Was it hard to believe?  
Wear your heart on my sleeve  
And I'll hold you when you're lonely  
When you're cold cause you're the only girl for me

Cross my heart and hope to die  
Since you came into my life  
My momma says to pick the best  
And you are it

Hey  
All our trouble's gone  
Like when we were young  
Take me back to where we all began  
Here we are again like we should've been  
Oh my lady can I have this dance?  
My lady  
Hey  
All our troubles gone  
Like when we were young  
Take me back to where we all began

Take you dancing in the park  
Stroll the westside after dark  
You are shining, you're an angel  
When these words are set on a paper  
You will never be a stranger now

Hey  
All our trouble's gone

Like when we were young  
Take me back to where we all began  
Here we are again, like we should've been  
Oh my lady can I have this dance?  
Hey  
All our trouble's gone  
Like when we were young  
Take me back to where we all began  
Here we are again, like we should've been  
Oh my lady can I have this dance?  
Hey  
All our troubles gone  
Like when we were young  
Take me back to where we all began

Cross my heart and hope to die  
Since you came into my life  
My momma says to pick the best  
And you are it
