

Anytime (I'm Your Man)

Alabama

Anytime you wanna love me
You can love me anytime
Early morning late at night
Anytime the time is right
Oh, if you want to hold me
Well you know that you can
Anytime (anytime) anytime
I'm your man (I'm your man)

Baby you're something
You're something else
I'll keep you're loving
All to myself
I live for the moment
When its just you and me
Baby just you and me

Anytime you wanna love me
You can love me anytime
'Cause I'm ready and I'm willing
Name the place name the time
December through November
Just give me your hand
Anytime (anytime) anytime (anytime)
I'm your man (I'm your man)

So hold me closer
Close as you can
Whisper to me
Now what's your plan
You can trust me
Understand baby understand

Anytime you wanna love me
You can love me anytime
Oh, if you want to hold me
Well you know you always can
Anytime (anytime) anytime
I'm your man...
